

PLAN A NIGHT SHIFT SCHEDULE WITH FATIGUE SCIENCE IN MIND

1
10 hour shifts increase the likelihood of a fatigue-related incident by 13%

2
12 hour shifts increase the likelihood of a fatigue-related incident by 27%

3
For safety sake, great effort should be made to keep night shift duration to a max of 8 hours

4
1-2 consecutive 8 hour night shifts should be followed by at least 2 nights of recovery sleep
